

KDIP01 Impact Punchdown Tool

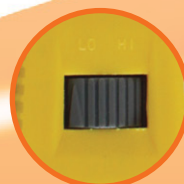

Major Tech's Impact Punchdown Tool is a versatile and essential instrument for datacom applications. This universal tool is compatible with both Krone and 110 style blades, offering flexibility for various wiring tasks. With a high and low impact adjuster, this tool provides precise control tailored to your needs. The lockable storage in the handle ensures convenient access to replacement blades, which can be easily and quickly changed. Perfect for inserting wires into insulation-displacement connectors on punch down blocks, patch panels, keystone modules, and surface mount boxes, this Impact Punchdown Tool is designed for efficiency. With a length of 190mm, it's a reliable and compact solution for your data wiring requirements. Upgrade your toolkit with this indispensable tool for seamless and accurate punchdown operations.
