

HSSB0311 & HSSB0406 Replacement Blade

Upgrade your hacksaw's cutting capabilities with our high-quality replacement blades. The 300mm Flexible Carbon Steel Hacksaw Blade, crafted from top-grade High-Speed Steel (HSS), is versatile and suitable for cutting both metal and wood. Specifically, the HSSB0311 model is designed for less rigorous use, making it ideal for softer materials like metals and plastics. For added convenience, our Replacement 150mm Blades come in a pack of 10, each featuring a high-grade HSS blade. The HSSB0406 model includes a high-speed steel cutting edge, electron-beam welded to a flexible alloy back, ensuring durability and resilience. These blades effortlessly cut through virtually any type of steel while remaining unbreakable in normal use, providing consistent and reliable cutting for your projects.

Features

- High grade HSS blade for cutting metal or wood

Product Code	Length
HSSB0406	150mm
HSSB0311	300mm
