

SFP-20C Solar LED Floodlight

The SFP-20C Solar LED Floodlight that ensures brilliant illumination with a high lumen output of 900lm. Its 6500k colour temperature ensures vibrant lighting. During the day, the floodlight charges under the sun's rays. At night, the solar panel identifies the absence of light. When someone enters the lamp's coverage area, the PIR sensor triggers the light to come on. The light stays lit as long as the person remains within the coverage area, when the person exits the area for 1 minute, the light switches off automatically. With a 5V/1W solar panel, and 120-degree beam angle, it's perfect for pathways, wall mounting, and parking bays.

Features

- 3.7V, 2600mAh Li-ion battery
- Comes with 2 lighting modes: Daytime mode and Night mode.
- Automatic shutoff: Light turns off after 30 seconds of no movement.
- 5V, 1W Compact and lightweight Monocrystalline Silicone solar panel
- Super compact design with a 900 lumen output for exceptional brightness.
- Wide beam angle: 120 degrees for broad coverage.

Function	Range
LED Power	20W
Real Power	7W
Lumen Efficiency	130Lm/W
LED Lumen	900 Lm
LED Type	SMD2835
Battery Capacity	3.7V, 2600mAh
Battery Type	Li-Ion
Battery Working Time	Activation Dependant
Beam Angle	120°
IP Grade	IP54
Colour Temperature	6500K Cool White
Solar Panel Power	5V, 1W
PIR Sensor Range	4m
Installation Height	1.5 to 2.5m
Material:	
Floodlight	ABS+Tempered Glass
Solar Panel	Monocrystalline Silicone
Dimensions:	155 x 38 x 146mm

900 Lumen Output

PIR Sensor

Compact A Grade Monocrystalline
Silicone Solar Panel
