

PC0310 Pipe Cutter

The PC0310 is the ultimate tool for clean and effortless cutting of PVC and synthetic plastic conduit and pipes. This powerhouse features a pistol gun handle housing and a ratchet closing mechanism blade action for precise control and ease of use. Crafted with heavy-duty aluminium die-cast construction, the PC0310 is built to withstand tough jobs and ensure longevity. Its steel heat-treated blade guarantees durability, while the patented "Dagger" blade technology sets it apart from conventional cutters by minimizing conduit distortion and tripling the blade's lifespan. With a maximum cutting capacity of 35mm outside diameter, this robust cutter is a reliable companion for professionals in the field.

Features

- Cuts PVC & other synthetic plastic conduit & pipes
- Pistol gun handle housing
- Heavy duty aluminium die cast
- Dagger that cuts with minimum conduit distortion
- Steel heat treated blade
- Ratchet closing mechanism blade action
- Cleanly and easily cuts PVC and other synthetic plastic conduit and pipes
- Robust, heavy duty aluminium die cast construction
- Stainless steel heat treated cutting blades
- Cuts up to 35mm max outside diameter
- High quality patented "Dagger" blade cuts with minimum conduit distortion and lasts three times longer than a conventional blade

Product Code	Cutting Size
PC0310	Ø35mm

Pistol Gun Handle
